Elad Shomron

software engineer

Summary

Highly motivated 23-year-old software developer with a strong work ethic and a background in the Israeli Defense Forces. Experienced in leadership and teamwork, with a commitment to serving my country. Skilled in multiple programming languages and able to work well in a team environment. Looking to leverage my skills and experience to make a meaningful contribution to the field of software development.

Experience

IDF Commando Unit "Egoz"
(2018-2021)

squad leader- I have experience leading a team of soldiers and ensuring the successful completion of missions. I am comfortable making decisions under pressure and am skilled in motivating and inspiring others.

combat instructor- ability to teach and effectively communicate complex information and techniques to students. This requires patience, attention to detail, and the ability to adapt to the needs and learning styles of individual students.

Commando School Merit Badge (2019)

Education

Sela College -

Software Development FullStack
(2022-2023)

Metro-west" High School -

physics - 5 units
chemistry - 5 units
English - 5 units
(2016-2018)

Skills

- Proficiency in programming languages (JS, HTML, CSS, Python, C#, Angular, React, TS, SQL, Docker, etc.)
- Knowledge of software design patterns (object-oriented design, microservices, etc.)
- Commitment to continual learning and staying up-to-date with new technologies and methods
- Strong analytical and critical thinking skills
